Annie Hughes was born in Anglesey, trained as a nurse in Chester and during WW1 she nursed with the Territorial Force, looking after military casualties. This book contains a brief summary of her life as a nurse and a reproduction of her 'Autograph Album', in which there are entries by colleagues and patients. This is a glimpse into the life of a nurse in the 1900's and an insight into the thoughts of people who were nursed by her or worked alongside her.

Annie remained a spinster and devoted her life to her patients.

This book has been published by Gill Jones, in memory of Nurse Annie Hughes, her great aunt. Annie died before Gill was born but she always loved her 'Autograph Album' and would like to share it with others.

A charitable donation will be made from the proceeds of each book sold, so that Annie's life will make a difference in the present as well as the past.
